REDEMPTION

In order to redeem the Offer, you must comply with the following:

Initial Term

In order to receive the Offer, you must register the Eligible Product at: <https://account.wacom.com/en-us/sign-in?returnUrl=/en-us/product-registration>. Registration must be completed in full no later than January 31, 2021 (the "Registration Period"). Registration requires that you provide your name, a valid email address, and the serial number of the Eligible Product (normally detected automatically). You agree to provide accurate and complete registration information.

When registration with Wacom has been properly completed during the Registration Period, you will receive an email from Wacom confirming your registration. Your software release code for the License and a link to download the Software will be made available to you in your Wacom Library accessible via your Wacom account (<https://account.wacom.com>). The software release code must be redeemed by January 31, 2021 in order to receive the Offer. Please note that each software release code is unique per end user and is for one time use only.

Note that registering with Wacom and redeeming your software release code only grants use of the Software for the Initial term. With 59 days or less remaining in the Initial Term, a countdown will begin to appear in the menu bar for the Software specifying the number of days remaining until expiration of the Initial Term. You can also check the number of days remaining for the Initial Term at any time using the following methods:

Windows: Click the [Help] menu > [License Agreement]

macOS: Click the [Clip Studio Paint] menu > [License Agreement]

If you do not extend the License for the Extended Term pursuant to the section to follow, the License will expire upon the termination of the Initial Term.

Extended Term

You may extend the License for the Extended Term by registering with Celsys as described herein. Following the expiration of the Initial Term, a dialog box labeled "Purchase a License" will automatically appear when the Software is launched. Through the dialog box, you can login to a Celsys account and access a menu to register for a monthly plan. You will need to input in the registration menu the required information and provide a valid credit card in order to complete your registration with Celsys. Following your registration with Celsys, you will be granted the right to use the Software for the Extended Term.

After the registration, you can log in via the new “License Holders” dialog box that will appear in the Software. After logging in, the Extended Term will be verified, and the Software will launch.

Please note that a Celsys account is required in order to extend the License for the Extended Term. A valid email address and an account name is required in order to create a Celsys account.

In order to avoid being charged license fees by Celsys, you must cancel your registration with Celsys prior to the expiration of the Extended Term. If you do not cancel your registration with Celsys prior to the expiration of the Extended Term, Celsys will charge you for the use of the Software following the Extended Term at its standard licensing rates.
